01

## Executive summary

This engagement will deliver a comprehensive web development solution with Paystack DVA integration, AI-powered proposal generation, and PDF invoice verification capabilities.

02

## Objectives

- Develop a fully functional web application with Paystack DVA payment integration
- Implement AI-powered proposal generation system for automated document creation
- Create PDF invoice verification functionality for document authentication

03

## Scope of work

### 1. Web Development

- Frontend development of the web application with responsive design
- Backend implementation of core functionality and database architecture

### 2. Payment Integration

- Implementation of payment verification and confirmation workflows

### 3. AI Implementation

- Development of AI proposal generation system
- Integration of natural language processing for document creation

### 4. PDF Verification

- Implementation of PDF invoice verification functionality
- Development of document authentication and validation features

0 4

## Deliverables

- Fully functional web application with all requested features
- AI-powered proposal generation system with user interface
- PDF invoice verification module with validation capabilities
- Comprehensive end-to-end QA testing report
- Technical documentation and user guides
- Source code and deployment instructions

0 5

## Timeline

| PHASE                | DURATION | FOCUS                                          |
|----------------------|----------|------------------------------------------------|
| Discovery & Planning | 1 week   | Requirements gathering and architecture design |

0 6

## Invoice

|                                                  |                 |
|--------------------------------------------------|-----------------|
| Web development + payment integration engagement | ₦850,000        |
| <b>TOTAL DUE</b>                                 | <b>₦850,000</b> |
| Due 30 October 2026                              |                 |

PAYMENT — PAYSTACK DEDICATED VIRTUAL ACCOUNT

Transfer the total due to this account. Payment reflects automatically.

BANK

**Paystack Test Bank (Sandbox)**

ACCOUNT NUMBER

**9937978201**

ACCOUNT NAME

**Okomba Analytics**

Sandbox account shown (PAYSTACK\_SECRET\_KEY not configured) — live details are used once configured.

07

## Terms of engagement

- 50% upfront, 50% on delivery
- Project duration: 6 weeks
- Free 30-day post-launch support
